

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

LISTING OF CLAIMS:

1. through 20. (cancelled)

21. (currently amended): A portable electronic device, comprising:

a memory which stores at least two functions and at least two items assigned to at least one of the functions;

a display which displays at least a first picture and a second picture,

wherein, the first picture comprises

(a) a function,

(b) a first item displayed at a first predetermined position of the display and assigned to the displayed function, and

(c) a second item displayed at a second predetermined position of the display and assigned to the displayed function, ~~and~~

wherein the second picture does not include any item which is assigned to a function or which is displayed at either the first predetermined position or the second predetermined position, ~~and~~

wherein the display displays the second picture in response to a selection of the first item:

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

a first button, corresponding to the displayed first item, wherein the pressing of the first button indicates the selection of the first item when the display is displaying the first picture; and

a second button, corresponding to the displayed second item, wherein the pressing of the second button indicates ~~the a~~ selection of the second item when the display is displaying the first picture;

wherein,

when the display is displaying the second picture, the pressing of the first button or the second button indicates one or more actions unrelated to the first item or the second item.

22. (currently amended): The portable electronic device according to claim 21, wherein:
~~the at least two functions include a key tone function;~~

a first item assigned to the ~~key tone~~displayed function is an "on" item, wherein the pressing of the first button, when the display displays the "on" item, turns the displayed~~key tone~~ function on; and

a second item assigned to the displayed ~~key tone~~ function is an "off" item, wherein the pressing of the second button, when the display displays the "off" item, turns the displayed ~~key tone~~ function off.

23. (currently amended): The portable electronic apparatus according to claim 21,
wherein:

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

the at least ~~to two~~ functions include an automatic power function;

a first item assigned to the automatic power function is an "on" item, wherein the pressing of the first button, when the display displays the "on" item, turns the automatic power on; and

a second item assigned to the automatic power function is an "off" item, wherein the pressing of the second button, when the display displays the "off" item, functions turns the ~~key~~ ~~tone function~~ automatic power off.

24. (previously presented): The portable electronic device according to claim 21, wherein:

when the display is not displaying the first picture, the pressing of the first button functions to move a cursor, displayed on the display, in a first direction; and

when the display is not displaying the first picture, the pressing of the second button functions to move a cursor, displayed on the display, in a second direction.

25. (previously presented): The portable electronic device according to claim 21, wherein:

the first button is located directly below the display of the first item; and

the second button is located directly below the display of the second item.

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

26. (previously presented): The portable electronic device according to claim 21,
wherein:

the portable electronic device comprises a phone.

27. (currently amended): A portable electronic device, comprising:
means for storing at least two functions and at least two items assigned to at least one of
the functions;

means for displaying at least a first picture and a second picture,

wherein the first picture comprises:

(a) a function,

(b) a first item displayed at a first predetermined position of the means for
displaying and assigned to the displayed function, and

(c) a second item displayed at a second predetermined position of the
means for displaying and assigned to the displayed function, and

wherein the second picture does not include any item which is assigned to a
function or which is displayed at either the first predetermined position or the second
predetermined position; and

wherein the means for displaying displays the second picture in response to a
selection of the first item;

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

a first button, corresponding to the displayed first item, wherein the pressing of the first button indicates the selection of the first item when the means for displaying is displaying the first picture; and

a second button, corresponding to the displayed second item, wherein the pressing of the second button indicates ~~the a~~ selection of the second item when the means for displaying is displaying the first picture; .

wherein, when the means for displaying is displaying the second picture, the pressing of the first button or the second button indicates one or more actions unrelated to the first item or the second item.

28. (currently amended): The portable electronic device according to claim 27, wherein:

~~the at least two functions include a key tone function;~~

a first item assigned to the ~~key tone~~displayed function is an "on" item, wherein the pressing of the first button, when the means for displaying displays the "on" item, turns the displayed ~~key tone~~ function on; and

a second item assigned to the displayed ~~key tone~~ function is an "off" item, wherein the pressing of the second button, when the means for displaying displays the "off" item, turns the displayed ~~key tone~~ function off.

29. (currently amended): The portable electronic apparatus according to claim 27,
wherein:

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

the at least to functions include an automatic power function;

a first item assigned to the automatic power function is an "on" item, wherein the pressing of the first button, when the means for displaying displays the "on" item, turns the automatic power on; and

a second item assigned to the automatic power function is an "off" item, wherein the pressing of the second button, when the means for displaying displays the "off" item, functions turns the ~~key tone~~ automatic power function off.

30. (previously presented): The portable electronic device according to claim 27, wherein:

when the means for displaying is not displaying the first picture, the pressing of the first button functions to move a cursor, displayed on the display, in a first direction; and

when the means for displaying is not displaying the first picture, the pressing of the second button functions to move a cursor, displayed on the display, in a second direction.

31. (previously presented): The portable electronic device according to claim 27, wherein:

the first button is located directly below the display of the first item; and

the second button is located directly below the display of the second display.

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

32. (previously presented): The portable electronic device according to claim 27,
wherein:

the portable electronic device comprises a phone.

33. (currently amended): A portable electronic device, comprising:
a display which displays at least a first picture and a second picture,
wherein said first picture comprises a first item displayed at a first predetermined
position and a second item displayed at a second predetermined position, and
wherein said second picture does not include any items at the first predetermined
position or at the second predetermined position, and
wherein said display displays said second picture in response to a selection of said
first item;
a first button, wherein ~~a~~ the selection of said first item is executed by a depression of said
first button when said first picture is being displayed; and
a second button, wherein a selection of said second item is executed by a depression of
said second button when said first picture is being displayed;
wherein a first action, which is unrelated to said first item or to said second item, is
executed by a depression of said first button when said second picture is being displayed, ~~and a~~
~~second action, which is unrelated to said first item or to said second item, is executed by a~~
~~depression of said first button when said second picture is being displayed.~~

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

34. (currently amended): The portable electronic device according to claim 33, wherein:
said first item is "on" and a depression of said first button when said first picture is being
displayed turns a ~~key-tone~~ function on, and

said second item is "off" and a depression of said second button when said first picture is
being displayed turns a ~~key-tone~~the function off.

35. (currently amended): The portable electronic device according to claim 33, wherein:
said first item is "on" and a depression of said first button when said first picture is being
displayed turns an automatic power function on, and

said second item is "off" and a depression of said second button when said first picture is
being displayed turns ~~an~~the automatic power function off.

36. (previously presented): The portable electronic device according to claim 33,
wherein:

when the first picture is not being displayed, a depression of said first button functions to
move a cursor, displayed on the display, in a first direction, and a depression of said second
button functions to move the cursor in a second direction.

37. (previously presented): The portable electronic device according to claim 33,
wherein:

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

said first button is located directly below the display of the first item, and said second button is located directly below the display of the second item.

38. (previously presented): The portable electronic device according to claim 33, wherein the portable electronic device comprises a phone.

39. (currently amended): A portable electronic device, comprising:
a means for displaying at least a first picture and a second picture,
wherein said first picture comprises a first item displayed at a first predetermined position and a second item displayed at a second predetermined position, and
wherein said second picture does not include any items at the first predetermined position ~~or~~ at the second predetermined position, and
whcrein said means for displaying displays said second picture in response to a selection of said first item;
a first execution means, wherein ~~a~~ the selection of said first item is executed by the first execution means; and
a second execution means, wherein a selection of said second item is executed by the second execution means;
wherein a first action, which is unrelated to said first item or to said second item is executed by the first execution means when said second picture is being displayed, ~~and a second~~

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

~~action, which is unrelated to said first item or to said second item is executed by the second execution means when said second picture is being displayed.~~

40. (currently amended): The portable electronic device according to claim 39, wherein:
said first item is "on" and, when said first picture is being displayed, said first execution means turns a ~~key-tone~~ function on, and
said second item is "off" and, when said first picture is being displayed, said second execution means turns a ~~key-tone~~the function off.

41. (currently amended): The portable electronic device according to claim 39, wherein:
said first item is "on" and, when said first picture is being displayed, said first execution means turns an automatic power function on, and
said second item is "off" and, when said first picture is being displayed, said second execution means turns ~~on~~the automatic power function off.

42. (previously presented): The portable electronic device according to claim 39,
wherein:
when the first picture is not being displayed, said first execution means moves a cursor, displayed on the display means, in a first direction, and said second execution means moves the cursor in a second direction.

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

43. (previously presented): The portable electronic device according to claim 39,
wherein:

said first execution means is located directly below the display of the first item, and said
second execution means is located directly below the display of the second item.

44. (previously presented): The portable electronic device according to claim 39,
wherein the portable electronic device comprises a phone.

45. (new): The portable electronic device according to claim 33, wherein a second
action, which is unrelated to said first item or said second item is executed by a depression of
said second button when said second picture is being displayed.

46. (new): The portable electronic device according to claim 39, wherein a second
action, which is unrelated to said first item or to said second item is executed by the second
execution means when said second picture is being displayed.

47. (new): The portable electronic device according to claim 21, further comprising an
end button, wherein when the end button is pressed while the first picture is displayed, the
portable electronic device returns to a stand-by state.

AMENDMENT UNDER 37 C.F.R. § 1.116
U.S. Application No. 09/408,265

Q55939

48. (new): The portable electronic device according to claim 27, further comprising an end button, wherein when the end button is pressed while the first picture is displayed, the portable electronic device returns the portable electronic device to a stand-by state.

49. (new): The portable electronic device according to claim 33, further comprising an end button, wherein when the end button is pressed while the first picture is displayed, the portable electronic device returns the portable electronic device to a stand-by state

50. (new): The portable electronic device according to claim 39, further comprising a third execution means, wherein the third execution means returns the portable electronic device to a stand-by state.
